Oil Conservation Commission  
P. O. Drawer DD  
Artesia, New Mexico

Attn: Mr. M. L. Armstrong

Re: State O-16, Unit.  
Well No 1. 16-18S-29E  
Loco Hills Pool.

Dear Mr. Armstrong,

In answer to your letter dated April 19, 1965 concerning the above lease (State of New Mexico B-7437), I am first of all sorry about my delinquency in acting on this.

I am attaching to this letter all the correspondence from the legal file concerning the release of this lease by the Continental Oil Co., and Donnell Drilling Co., back to the State of New Mexico.

I visited with the pumper Mr. B. J. Rogers of Loco Hill, N. Mex. He informed me that a Mr. Bill Miller with The Continental Oil Co. plugged out this well and he knows that proper cement plugs were placed.

If I can be of further help on this please send me your instructions.

Sincerely yours,

*Paul G. White*

Paul G. White  
Division Engineer  
Western Oil Fields, Inc.

CC. Mr. V. W. McKnab

We have written for a Form C-103 showing the plugging program.

Mose
