Re: Form C-115, State 32, Well  
# 1-B, Sec. 32-188-31E, Un-  
designated Queen Grayburg  
Pool, Eddy Co, New Mexico.

Gentlemen:

In checking our production records, we find Form C-115's have been filed for the subject wells' Culwin Yates production but find none covering the undesignated Queen-Grayburg production. When a well is dually completed it is necessary to file separate production reports for each zone.

Please submit one copy of the delinquent Form C-115's for the first five months of 1961 along with your regular June report. You need send these back copies to this office only.

Very truly yours,

OIL CONSERVATION COMMISSION

Re: Form 0-112, State 35, Well  
1-1-61, Sec. 12-12-312, 0-1-  
Registered Green-Grading  
Pool, City of New Mexico.

Enclosure

In checking our production records, we find Form 0-112's have  
been filed for the subject wells; Oilwin Yates production but find  
none covering the unregistered Green-Grading production. When a  
well is daily completed it is necessary to file separate production  
reports for each zone.

Please submit one copy of the delinquent Form 0-112's for the  
first five months of 1961 along with your regular June report. You  
need send these back copies to this office only.

Very truly yours,

THE COMMISSION
