13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent data, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all casings and zones pertinent to this work.)

On 2/22/94, the BLM approved our application to drill (APD) this well at the following location:

1650' FNL & 1550' FWL

Since then we have moved this well to a new location. The proposed location is now:

1650' FNL & 990' FWL

The new location was formerly called the ESU #101. The location was arched and cleared under that well name. The BLM office in Carlsbad has a copy of the arch report. Please change your records to reflect this new location. Upon receiving your approval for this change we will commence to drill this well. A copy of the plat for the new location is attached.

RE: East Shugart Unit #49
Non-Standard Location Approval

Gentlemen:

Devon Energy Corporation was notified, by notations on our Form 3160-3 (approved for drilling), that our proposed East Shugart Unit #49, to be located 990' FNL and 1500' FEL of Section 35-T18S-R31E in Eddy County, is an unorthodox location. The location was moved due to the original location being too close to a pipeline. Enclosed is a plat of the East Shugart Unit showing the Unit's boundaries and the wells within; and copy of Form 3160-3 with attachments including copy of form C-102.

The East Shugart Unit is a federal unit (#14-08-0001-11572) and the proposed well is to be part of this active waterflood project. The wells offsetting the proposed location are owned and operated by Devon, therefore, no other notification is necessary.
