Indian Basin-Morrow Gas Pool  
Eddy County, New Mexico

Gentlemen:

Please be advised that our client, David Fasken, was connected to subject wells as "first purchaser" effective May, 1968.

Forms C-104 "Authorization to Transport" for these wells reflecting the change in transporter are enclosed. There have been no changes in the physical construction of the connections--this is to conform to the status of Mr. Fasken as "first purchaser" under the Commission's rules.

Sincerely,

HENRY ENGINEERING

S. L. Parks
