13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

We respectfully request permission to vent approximately 150 MCFGPD for 4 days in order to evaluate a possible compressor intallation. This well is located in an unpopulated area; however, due to the topography of the location (low lying area near the Pecos River), the gas will be flared. The gas to be flared is sweet and contains no H2S.
