

2. Re-vegetation and rehabilitation to be completed as per BLM recommendations.
3. Prior to rig release, pits will be fenced so maintained until clean up.
4. Any oil in pit will be transferred to steel stock tank and separated and sold.
5. All clean up should be completed within 6 months of well completion.

11. OTHER INFORMATION.

1. The land is relatively flat, dipping northwesterly approximately 50' per mile.
2. The well location and access road is situated entirely in Section 12, which is Federally owned. The portion of the proposed access road that exists and was previously used as access to the dry hole (See Exhibit "F") shall be re-constructed.
3. No ponds, lakes, streams, water wells or occupied dwellings exist in the area.
