13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Yates Petroleum Corporation wishes to extend the captioned well's APD expiration date for one (1) year to July 31, 2005. A drilling pit will be constructed at this wellsite under Yates Petroleum Corporation general plan that was approved by OCD on April 15, 2004. (The State Engineers Web Site has been accessed for the above well location. There were no records found of ground water depth, water wells or the indication of any surface water.) Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Basement Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118. Thank you,

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit xx or an (attached) alternative OCD-approved plan ☐.
