13. Describe Proposed or Completed Operations (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomple horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once Testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Yates Petroleum Corporation wishes to extend the captioned well's APD expiration date for one (1) year to 10/20/2005.

Any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines with a approved general permit on file.

Depth to ground water is less than 50 feet. The wellhead protection area: is not less than 200 feet from a private domestic water source, or less than 1000 feet from all other water sources.
Distance to surface water is 1000 feet or more.

Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Basement Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.
Thank you.

CEMENT TO COVER ALL OIL,
GAS AND WATER BEARING
ZONES I. e., Gloria
