Yates Petroleum Corporation wishes to extend the captioned well's APD for one (1) year to December 23, 2005.

Sources at Yates Petroleum Corporation have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Chester Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.

Any pit or below-grade tank has been/will be constructed or closed according to NMOC guidelines with an approved general permit on file.

Thank you
