NATURE OF RELEASE

Type of Release : Produced Water	Volume of Release : 45 bbls PW	Volume Recovered: 15 bbls PW
Source of Release : Surface Flow Line	Date and Hour of Occurrence: 10/13/14 3:00 pm	Date and Hour of Discovery: 10/13/14 @ 3:00 pm
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? BLM/Jeffery Robertson & OCD/Mike Bratcher	
By Whom? Kimberly Wilson with Talon/LPE	Date and Hour : 10/13/14 @ 4:00 pm	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* **A surface flow line was run over at the battery by a Par Five driver causing a release of 45 barrels of produced water. A vac truck was immediately called to the site and recovered 15 barrels. All wells were shut in and the flow line was repaired. The initial release point measured approximately 24-feet long by 21-feet wide then flowed east along both sides of Little Diamond Road for approximately 411-feet long by 10 feet wide. A backhoe was used to berm the flow path to prevent further migration.**

Describe Area Affected and Cleanup Action Taken.*

Talon/LPE was contracted for correction of this release. The impacted area in the vicinity of sample location S-5 was excavated to a depth of 3.5-feet deep and the remaining areas were excavated to a depth of 2-feet. Confirmation samples were taken from the bottom of the excavation. The excavated soil was transported to Lea Land for disposal. The excavation was subsequently backfilled with new caliche transported from Lea Land. The area was re-contoured to match the surrounding terrain. No further actions are required.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
