Describe Area Affected and Cleanup Action Taken.*     #35' x #45' NW of battery. Forty bbl recovered. Laid down plastic sheet, oily dirt excavated & placed on sheet, hole backfilled with clean dirt, backfilled hole surrounded by barbed wire fence. Will fence oily dirt pile on plastic sheet. Will prepare remediation action plan.     I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other rederal, state, or local laws and/op regulations.
