13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleation in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Frac crew unavailable to meet September 30 deadline as stipulated in Conditions of Approval dated August 20, 2011. Well put back on production on September 14, 2011 in interim.

Snow Oil & Gas Inc.
September 20, 2011
Conditions**

Since operator did not provide a timeline, the NOI to add Delaware perforations and potentially acidize and frac is now null and void. Operator shall submit new Notice of Intent if a decision is made to perform the Delaware workover.

Since well has only produced for two months in the past 10 plus years, operator shall perform a 72 hour BLM witnessed well test on this well by October 20, 2011.

If well cannot produce in paying quantities, operator shall submit a plug and abandonment procedure for approval.
