If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* The man way cover had internal corrosion. The heater was isolated and crews are working to repair the man way cover.

Describe Area Affected and Cleanup Action Taken.\* Approximately 3800 sq. ft of pasture land was affected by the release, all of the product had soaked into the ground, this was in an area that had been impacted by spills in the past.  
The Site remediation for the produced water and crude oil spill will follow the NMOCD and BLM guidelines for leaks and spills.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
