13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. respectfully requests the changes listed below to be approved for the above captioned well.

We would like to change the setting point of the 7" casing and the depth of the Baker B3 liner packer. The original APD for this well stated we would be setting 7" casing at 8,274'. After discussions with the completions group we have changed the 7" casing point to 8,150'. This would put us drilling 75' from the end of the curve which is adequate overlap for the Baker B3 liner packer. The B3 liner packer would be placed at 8,100' which is 50' into the 7" casing. The liner packer will be isolating 4-1/2" casing and 22 Baker open hole packers.
