13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Co, LP respectfully requests to change the TD of the pilot hole originally planned on the Cotton Draw 11 Federal Com 1H. The original TD of the pilot hole was 8,492 ft, the proposed TD is 9,620 ft. With the increase in depth the plug back cement volume would also need to be modified from the 400 sacks to 650 sacks. The cement formulation will not change.

I previously sent this Sundry on February 17th, but the BLM system was down and was unable to be located.

Thank you
