☐ Temporarily Abandon

☐ Water Disposal

☐ Water Shut-Off

☐ Well Integrity

☐ Other

13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompletable horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletable in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

After laboratory analysis of soil samples showed to have high level of chlorides in pit areas, operator plans to reduce pad size on well location and use said dirt to cap the pit area and areas of nongrowth. Upon cap completion, operator will seed with approved seed for this location. Copy of this sundry was emailed on March 5, 2012 to Jennifer Van Curen of BLM (jvancure@blm.gov) as well as copy to Mike Bratcher at NMOCD on same date.
