13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. respectfully requests the changes listed below to be approved for the above captioned well.

Due to a casing collar being placed in the slip area of the wellhead. The 13-3/8" SOW was cut off and a 9-5/8" SOW B section was welded on to the 9-5/8" casing stump. The 13-3/8" casing was orange peeled and welded on to the 9-5/8" casing sealing off the annulus. Cement was brought back to surface on both surface and first intermediate. The 9-5/8" SOW was tested to 1,200 psi. Test good.
