TYPE OF SUBMISSION  Acidize Deepen Production (Start/Resume) Water Shut- Reclamation Well Integral Subsequent Report Casing Repair New Construction Recomplete Change Plans Plug and Abandon Temporarily Abandon Convert to Injection Plug Back Water Disposal  Bescribe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the lf the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations If the operation results in a multiple completion or recompleted. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection)		
Notice of Intent  Acidize  Deepen  Reclamation  Well Integrated Subsequent Report  Casing Repair  New Construction  Recomplete  Other  Final Abandonment Notice  Change Plans  Plug and Abandon  Plug Back  Water Disposal  Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completed Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator had determined that the site is ready for final inspection)		
Subsequent Report  Casing Repair  New Construction  Recomplete  Other  Plug and Abandon  Well Integration  Convert to Injection  Plug Back  Water Disposal  Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the lift the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed on testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)		
Subsequent Report    Casing Repair   New Construction   Recomplete   Other	Off	
Final Abandonment Notice Change Plans Plug and Abandon Temporarily Abandon  Convert to Injection Plug Back Water Disposal  Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the lf the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed of testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator had determined that the site is ready for final inspection.)	ity	
Convert to Injection Plug Back Water Disposal  Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the lf the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed on testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator had determined that the site is ready for final inspection.)		
13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration the lf the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed of testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator had determined that the site is ready for final inspection.)		
If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zo Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA Required subsequent reports shall be filed within 30 day following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed of testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator had determined that the site is ready for final inspection.)		
BOPCO, L.P. respectfully requests to place this well on production  TOC behind 7" casing calculated to be at 2,700'. Estimated TOC behind 7" csg at 4,080' per temperature log. Ran Radial CBL with 1500 psi applied to 7" casing; estimated TOC from log at 4,610'. Pumped FW down 9-5/8" casing; 5 bbls @ 1/2 BPM, pressure down from 1300 psi to 800 psi, 13 bbls @ 1 BPM at 800 psi, shut down to have pressure hold steady at 800 psi. Ran a second Radial CBL with 3,000 psi applied to 7" casing; estimated TOC from log at 4,610'. Loaded 9-5/8" x 7" annulus with 2 bbls of FW and pressured up to 3,000 psi. Pressure held steady for 1 hour. Upon suggestion of BLM ran Cast V log with 3,000 psi applied to 7" casing. Log confirmed CBL, good bond to 4900 feet. Also showed apparent bonding up to top log depth of 2000?, but not definitive in terms of hydraulic seal at 7? x 9-5/8? annulus at 9-5/8? shoe at 4100?. However, 3000 psi has been applied to 9-5/8? x 7? annulus which indicates a seal somewhere in the annulus. After the well is  **MOCDA**  **APR 1.6 2012*  **APR 1.6 2012*  **INMOCDA**  **INMOCDA**  **APR 1.6 2012*  **INMOCDA**  **INMOCDA**  **APR 1.6 2012*  **INMOCDA**  **INMOCDA**  **APR 1.6 2012*  **INMOCDA**  **APR 1.6 2012*  **INMOCDA**  **APR 1.6 2012*  **INMOCDA**  **INMOCDA**  **APR 1.6 2012*  **	IA	
14 Thereby certify that the foregoing is true and correct  Electronic Submission #134377 verified by the BLM Well Information System  For BOPCO LP, sent to the Carlsbad  Committed to AFMSS for processing by KURT SIMMONS on 04/04/2012 (12KMS1479SE)	1202
