Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

RECEIVED
MAY 04 2012
NMOCD ARTESIA

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* The well pressured up and blew out the stuffing box packing. The packing was replaced and the pressure problem was corrected.

Describe Area Affected and Cleanup Action Taken.* An area covering approximately 1800 sq.ft. on the caliche well pad was affected by the release. All of the free standing fluid was recovered with a vacuum truck. The stained area on the well pad was left intact; a remediation crew will start sampling the impacted area on 5/7/12 to determine the vertical extent of the release. The spill will be remediated following the NMOCD guidelines for spill remediation.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
