CYCOWAN	Sources at YPC have relayed information to me that they believe there will not be enough H2S found from the surface to the Morrow formation to meet the OCD's minimum requirements for the submission of a contingency plan.	9/15/2005
CYCOWAN	Sources available have been accessed for the captioned well. With this information obtained from the web site determines the sight ranking for this well is 10 points. With this ranking deep trench, burial, and capping will take place at pit closure.	9/15/2005
CYCOWAN	Any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines with approved general permit on file.	9/15/2005
BARRANT	Cut brine as noted in your casing program on the fill in the blank section cannot be used to drill into a fresh water aquifer.	9/23/2005
