Latitude 32 3 57.3 Longitude 104 00 50.4												
NATURE OF RELEASE  Type of Release Produced water Volume of Release 450bbls Volume Recovered 445bbls												
Type of Release Produced water						volume of Release 45000is			e Recovered	recovered 44500is		
Source of Release Water transfer pump						Date and Hour of Occurrence Date and Hour of Discovery 01/19/2013 12:00 p.m.						
Was Immediate Notice Given?   ☐ Yes ☐ No ☐ Not Required						If YES, To Whom?  Mike Bratcher-OCD						
By Whom? Michelle Mullins						Date and Hour 01/20/2013 2:45 p.m.						
Was a Watercourse Reached?  ☐ Yes ☑ No						If YES, Volume Impacting the Watercourse.						
If a Watercourse was Impacted, Describe Fully.*												
Describe Cause of Problem and Remedial Action Taken.*												
A 1" steel nipple failed on the water transfer pump allowing the release of fluid into the lined facility. Replaced with new stainless steel nipple and valve, and plastic coated Victaulic bushing.												
Describe Area Affected and Cleanup Action Taken.*												
Initially 450bbls were released from the water pump and we were able to recover 445bbls with vacuum trucks. The entire release was contained inside the lined facility. All free fluid has been recovered. Contaminated gravel has been removed from the facility and we have replaced with fresh gravel as necessary. Equipment and lining has been pressure washed. This facility has been returned to its prior condition.												
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
