Describe Cause of Problem and Remedial Action Taken.*
The dump valves on the separator were not operating properly and fluid went out the flare stack.

Describe Area Affected and Cleanup Action Taken.*
The soil in and outside of the battery were affected and after delineation and soil samples return a cleanup plan will be done in agreement with the NMOC & BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
