13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 19.15.7.14 NMAC. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

The Geronimo 28 State SWD No. 2 was originally permitted to be drilled at a location 1655 feet from the South line and 800 feet from the East line of Section 28, T-17 South, R-28 East. Due to surface obstructions in this area, Apache Corporation now proposes to drill this well 2135 feet from the South line and 690 feet from the East line.

Order No. SWD-1378 dated January 3, 2013 approved this well as a produced water disposal well. Apache Corporation has submitted an application to the Santa Fe office of the Division to amend SWD-1378 to reflect the new well location for this well.

Attached is a Form C-102 showing the new well location. Also attached is an amended C-144 CLEZ that reflects the new well location.
