Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex Energy Co. of Colorado would like to respectfully request a one year extension for reclamation, with the possibility of needing longer, for treatment of the African Rue.

APPROVED FOR 6 MONTH PERIOD
ENDING 8-19-14

We plugged this well on August 22, 2013. We contacted Jim Hawley from H&R enterprises to bid the location for reclamation and it was noticed that there is African Rue growing along the lease road and on the location itself. Mr. Hawley suggested chopping the plants off at ground level and spraying the roots before moving forward with the reclamation. We then had a weed control company look at the situation and they felt it would be a futile attempt due to the age of the Rue and the time of year it is. The seed has already fallen from the plants a spraying the roots would not ultimately kill the weeds.

RE: NM0144698; Superior Federal 6
660' FSL & 1980' FWL, Sec. 6, T20S-R29E
Eddy County, New Mexico

Approval is subject to the following conditions: The African Rue will be cut off just below surface and bagged. The soils surrounding the plant will be picked up and transported to an offsite disposal. The African Rue will be treated as specified by the weed control company (specialist). The location will be reevaluated at the conclusion of the monsoon season. Additional needs and/or extension will be identified at that time.
