	<input type="checkbox"/> Convert to Injection	<input type="checkbox"/> Plug Back	<input type="checkbox"/> Water Disposal	

13. Described Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

MCKAY OIL CORPORATION requests the following procedure: Dig trench (2), 30' wide X 90' long X 17' deep, on Lookout B Federal #8 location pad, for contents from Lookout B Federal #3 to be encapsulated within. This request is being proposed due to hard rock encountered during trench-excavation on the Lookout B3 location. Contents from Lookout B3 will be encapsulated in trench (2) on Lookout B8 using same procedures as Lookout B3. Lookout B3 and Lookout B8 are on same lease, NM-36192. Trench (2) will be backfilled with 4' of topsoil and re-contoured to conform to original topography of the area. Pad will be re-vegetated as per Lookout B3 seeding requirements.
