Describe Cause of Problem and Remedial Action Taken.* TIH W/Collars hit gas bubble that unloaded the hole releasing 30 Barrels of fluid. The well was shut in.		
Describe Area Affected and Cleanup Action Taken.* The majority of the release was contained to the location pad with approximately 1 Barrel of fluid in pasture. The wet area on location was scraped up and disposed of at an NMOCD approved facility.		
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
