NMOCD ARTESIA

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Power failure at the transfer pump caused the frac tank to overflow and spill 20 bbls of produced water onto the ground. No fluids were recovered and power to the transfer pump was restored.

Describe Area Affected and Cleanup Action Taken.*

Power failure at the transfer pump caused the frac tank to overflow and spill 20 bbls of produced water onto the ground. No fluids were recovered and power to the transfer pump was restored. Remediation was completed in accordance with a remediation plan approved by Mike Bratcher of NMOCD via email on 10/04/2013 and approved by Jennifer Van Curen of the BLM via email on 01/07/2014.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
