**NATURE OF RELEASE**

Type of Release <b>Fresh Water mixed with bottom sediment</b>	Volume of Release <b>30 bbls</b>	Volume Recovered <b>25 bbls</b>
Source of Release <b>spill from man way cover on the tank</b>	Date and Hour of Occurrence <b>5/21/14 4:30 PM</b>	Date and Hour of Discovery <b>5/21/14 4:30 PM</b>
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? <b>Jerry Mathews with Devon Jim Amos with BLM and Mike Bratcher with OCD</b>	
By Whom? <b>John White with Assurance Fire &amp; Safety and Wesley Ryan with Devon</b>	Date and Hour <b>5/22/14 2:00 PM</b>	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\*

A tank cleaning crew opened a man way cover prior to checking for fluid resulting in a 30BBL spill of fresh water mixed with BSW.

Describe Area Affected and Cleanup Action Taken.\*

A safety contractor was overseeing a tank steaming job on a tank that was isolated and removed from service while a vac truck pulled fluid off of the BSW line. The contractors on location assumed the tank was empty enough to open the man way cover for LEL readings and to continue cleaning the remaining BSW by hand. The weight of the remaining fluid in the tank forced then way cover open allowing an estimates 30bbls of fresh water mixed with about 1' of BSW sludge out onto the location. The vacuum truck on location was able to recover 25BBLs. The fluid stayed on the caliche pad.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
