Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

COG Operating LLC respectfully requests permission to:

- Construct an access road being approximately 164.67' in length to access the Sidemarine 10 Federal #1H well and battery location. The road will serve as access to the well location and facilities and be 30' in width. The existing road access on the Southeast corner of the location will be reclaimed. A fence will be installed around the reclaimed access road blocking access to and from the location around the reclaimed area shown on attached plat. The new road access is necessary to accommodate new equipment resulting from Quad O standards for venting gas.
