NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	100bbls	Volume Recovered	
Source of Release	Flowline	Date and Hour of Occurrence	10/05/2014	Date and Hour of Discovery	10/06/2014
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Sol Hughes, BLM		
By Whom?	Heather Dolphin	Date and Hour	10/06/2014 11:30am		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	n/a		

If a Watercourse was Impacted, Describe Fully.*
n/a

Describe Cause of Problem and Remedial Action Taken.*
We had an injection line leak in the flowline from the Grier Battery to the NSLU #102 SWD. The buried IPC tubing that is the flowline for this sprung a leak in it sometime over night. The spill went down the county road as well, which is where the line is buried.

Describe Area Affected and Cleanup Action Taken.*
We have shut down battery and are waiting for next steps going forward from BLM.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
