To Whom It May Concern:

A recent field inspection found that abandonment reclamation responsibilities, for the above-referenced well location, can be transferred to the Amax 24 Federal, No. 8 site, reference below, which is still active on this formerly multi-well, now single-well pad.

Amax 24 Federal, No. 8  
2160 FSL & 330 FWL, Sec. 24, T23S-R31E  
Eddy County, New Mexico

A separate written order is included for the Amax 24 Federal, No. 8, ordering the interim reclamation of all unneeded surface area on this pad. Therefore, submit a Sundry Notice (3160-5, Final Abandonment Notice), one original and 3 copies showing the Amax 24 Federal, No. 2 location to be ready for final abandonment consideration.
