13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

This facility makes enough production to overcome the expenses plus make income for the company. The electricity is approximately \$100.00 a month. I do the production reports, the roustabouting, the pumping, and all other aspects of the work. It is located withend 3 miles of another battery I operate, therefore the gasoline is not an issue. The produced water is only hauled every 7 or 8 months, therefore that is not an issue.

Provide Lease Operating Statements for the last 12 months. separate sundries for each well
