If a Watercourse was Impacted, Describe Fully.\*

Describe Cause of Problem and Remedial Action Taken.\* A valve on the last unit suction and truck load line was discovered cracked open. A chemical salesman discovered the spill, closed the valve and notified BOPCO. The valve has been locked in the closed position.

Describe Area Affected and Cleanup Action Taken.\*

The spill impacted approximately 5760 sq.st. of caliche tank battery pad. All of the free standing fluid was picked up with a vacuum truck. After receiving permission from the NM one-call system a front loader was used to scrape up the saturated soil and stockpile on site. A remediation in the area was scheduled to begin on 3/23/15.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
