Driver was loading off of the produced water tank and did not realize the back valve on the trailer was opened. The hauler shut off the pump and the open valve and called a supervisor.

RECEIVED

Describe Area Affected and Cleanup Action Taken.\*  
Fuson did one call and did cleanup work. They back dragged area where spray occurred on location. Roustabout rerouted line to prevent upward spray.

*Analytical Data Required* *HMP*

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
