RECEIVED

**If a Watercourse was Impacted, Describe Fully.\***  
N/A

**Describe Cause of Problem and Remedial Action Taken.\***  
On June 6, 2015 10:50 AM J&J Solutions Contractor called Asst. Foreman Automation who then contacted Asst. Production Foreman and reported a leak at the Aquila 22 Fed Com 1H, upon arrival it was discovered that a 3" fill line to the produced water tank had a hole in it releasing 9.5bbls produced water and .5bbl oil into lined containment. The affected tank was immediately switched out of and the line was isolated.

**Describe Area Affected and Cleanup Action Taken.\***  
The affected area was a 30x80 area inside the lined containment. All fluids were recovered and containment has no holes. Containment and equipment will be pressure washed.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
