Revised August 8, 2011

Submit 1 Copy to appropriate District Office in accordance with 19.15.29 NMAC.

Release Notification and Corrective Action

NAB1519433156

OPERATOR

Initial Report Final Report

Name of Company Yates Petroleum Corporation	OGRID Number 25575	Contact Robert Asher
Address 104 S. 4 th Street	Telephone No. 575-748-1471	
Facility Name Dagger Draw Com Battery	Facility Type Battery	
Surface Owner Fee	Mineral Owner Fee	API No. 30-015-26662

LOCATION OF RELEASE

Unit Letter	Section	Township	Range	Feet from the	North/South Line	Feet from the	East/West Line	County
M	19	19S	25E	660	South	660	West	Eddy

Latitude 32.64086 Longitude 104.53032

NATURE OF RELEASE

Type of Release Produced Water	Volume of Release 10 B/PW	Volume Recovered 9 B/PW
Source of Release Production Tank	Date and Hour of Occurrence 6/19/2015; AM	Date and Hour of Discovery 6/19/2015; AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Mike Bratcher, Heather Patterson & Randy Dada	
By Whom? Robert Asher/Yates Petroleum Corporation	Date and Hour 6/19/2015; AM	11:00 AM (Per e-mail)
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.

RECEIVED

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*
The production tank overflowed, causing the release. Vacuum truck(s) were called.

Describe Area Affected and Cleanup Action Taken.*
An approximate area of 120' X 15' was affected within the bermed battery. The valves were closed and approximately 90% (9 B/O) of the produced water was recovered using a vacuum truck. Impacted soils are to be remediated in-place with micro-blaze and applications of nitrogen fertilizer (3, 30 day applications). The area of impacted soils will be sampled for TPH/BTEX and chlorides (for documentation) to insure that contaminants are below RRAL's for a site ranking of Zero (0). **Depth to Ground Water: > 100' (approximately 250', per Chevron/Texaco Trend Map), Wellhead Protection Area: No, Distance to Surface Water Body: >1000', SITE RANKING IS 0. Based on the battery being bermed, the majority of the released produced water recovered and in-place remediation, Yates Petroleum Corporation requests closure.**

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
