RECEIVED

If a Watercourse was Impacted, Describe Fully.\*  
n/a

Describe Cause of Problem and Remedial Action Taken.\*  
A valve upstream from the circulating pump washed out and wouldn't hold fluid back. The spill filled up the berm around the circ. Pump and overflowed it.

Describe Area Affected and Cleanup Action Taken.\*  
100ftx1ft all the way down to the County Road 217 were it puddled 2ft x4ft. Vacuumed up all free standing liquid, then the pumper spread dirt over the spill on the asphalt. Will wait on further instruction from BLM and OCD to give us some direction on how they want this cleaned up.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
