NATURE OF RELEASE

Type of Release Produced water release	Volume of Release 20 BBLS	Volume Recovered 18 BBLS
Source of Release hole in high pressure hose on H pump	Date and Hour of Occurrence September 1, 2015 2:40 AM	Date and Hour of Discovery September 1, 2015 2:40 AM
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? BLM; Jim Amos OCD-Mike Bratcher	
By Whom? Assistant Production Foreman; David Simmons	Date and Hour BLM-September 1, 2015 4:40 AM OCD- September 1, 2015 2:10 PM	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse N/A	

If a Watercourse was Impacted, Describe Fully.*
N/A

Describe Cause of Problem and Remedial Action Taken.*

Hole in high pressure line on the H pump allowed 20 BBLS of produced water to be released. The power to the H pump and the charge pump was shut off and then the closed the valves upstream and downstream of the release to prevent further release. Line is being repaired.

Describe Area Affected and Cleanup Action Taken.*

20 BBLS of produced water was released. All of the released fluid remained on location. 18 BBLS of the released fluid was recovered via vacuum truck. Release occurred north of the water tanks. Approximate size of the affected area is 30' x 30'. Most of the released fluid collected in a hole that the produced water created when it released from the high pressure line. Environmental Agency will be contacted for remediation services.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
