Incident Number NMLB0527634695

30-015-30842

Dear Mr. Bratcher:

As you requested in your October 3, 2005 letter, we are providing the requested information.

OCD site ranking for this well site:

Criterion	Distance (feet)	Score
Depth to groundwater	> 500	0
Distance to water source	> 1000	0
Distance to surface water body	> 1000	0

-
2. Delineation of contamination – When the tank is removed from the impacted area, we will delineate and sample the area. Samples will be analyzed for total petroleum hydrocarbons. Analyses results and impacted area dimensions will be provided to you within two weeks.
3. We anticipate moving the tank no later than November 16, 2005. Sampling and delineation will occur within one business day of tank removal.
4. Notification will be provided to the OCD at least 24 hours prior to removal of tank.

If you need additional information regarding the delineation plan, please contact me by telephone at (432) 556-5322 or by e-mail at lowemj1@bp.com.

Sincerely,

Margaret J. Lowe

Dear Ms. Lowe,

The New Mexico Oil Conservation Division District II office is in receipt of the site ranking criteria for the remediation project at the above referenced well site.

As indicated in prior communications, please notify this office 24 hours prior to commencement of remediation activities and 24 hours prior to obtaining samples where analysis of such samples are to be presented to the NMOCD.

Thank you,

Mike Bratcher
