13. Describe proposed or completed operations. (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work). SEE RULE 1103. For Multiple Completions: Attach wellbore diagram of proposed completion or recompletion.

Yates Drilling Company request to extend the captioned well's APD expiration date for one (1) year to December 4, 2006.

Any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines with an approved general permit on file.

Sources at Yates Drilling Company have relayed information to me that they believe there will not be enough H2S anticipated from the surface to the Yeso Formation to meet the OCD's minimum requirements for the submission of a contingency plan per Rule 118.

I hereby certify that the information above is true and complete to the best of my knowledge and belief. I further certify that any pit or below-grade tank has been/will be constructed or closed according to NMOCD guidelines ☐, a general permit ☒ or an (attached) alternative OCD-approved plan ☐.
