Re: Westside 4 State Com #1

Attached is an aerial photo of the area around the Westside 4 State Com #1 reflecting the distances to nearest dwellings. Also attached is a list of potential residences with phone numbers (if available) which are probably not within ½ mile of the location but nonetheless are in the area. This list was taken the Eddy County Tax Assessors office as having "improvements" on the property. We assumed for the purposes of meeting OCD requirements that properties that reflected having improvements and were being taxed accordingly, actually have a dwelling located on them. There were numerous other properties in the area for which the tax assessor listed no improvements. We assumed these properties were not occupied and therefore are not listed here for notification purposes. I have talked to Bryan Arrant at the OCD and described the attached plat and list to him and he seemed to be satisfied. Let me know if additional information is required.

Westside 4 State Com #1
