13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Please amend the Indian Basin Field commingle as follows:

Production from the Indian Hills Unit Gas Com #47 is sent to Station 129 Satellite Facility. The production manifold tied to the test and production separators allow for individual well testing of the Indian Hills Unit Gas Com wells #3, 13, 14, & 47, while production from the remainder of these wells flows to the production separator. After separation, the gas and liquids are handled in the same manner described in the paragraph titled "Station 129 Satellite Facility" in the current commingle agreement. I have attached an updated diagram of this facility and copies of this diagram will be sent to you by mail and to the Carlsbad office as well to update their site security diagrams for this facility.

14. I hereby certify that the foregoing is true and correct.
