Driving by this well, observed that the well had standing fluids and fresh soil contamination on location. Cellar has standing fluids and saturated soils.

Remediation is required. Submit a remediation work plan to OCD District 2 Office prior to February 10, 2006.

OCD approved remediation must begin on this release no later than February 17, 2006. Until a remediation work plan is received, the NMOCD District 2 Office must be notified 48 hours prior to any remediation work or prior to taking samples where results of the samples may be submitted to the OCD.

In the event that a satisfactory response is not received to this letter of direction by the "Corrective Action Due By:" date shown above, further enforcement will occur. Such enforcement may include this office applying to the Division for an order summoning you to a hearing before a Division Examiner in Santa Fe to show cause why you should not be ordered to permanently plug and abandon this well. Such a hearing may result in imposition of CIVIL PENALTIES for your violation of OCD rules.

Sincerely,

Artesia OCD District Office
