To whom it may concern:

Attached for your review are Form 3160-5 and a wellbore diagram for Collinsoscopy Federal No. 1 (API # 30-015-33758). OWL SWD Operating, LLC intends to temporarily abandon Collinsoscopy Federal No. 001 by setting a cast iron bridge plug 50 feet above the highest perforation. As required, a mechanical integrity test will be performed after setting the cast iron bridge plug, and the results will be turned into the Oil Conservation Division and the Bureau of Land Management. Finally, Form C-103 has been sent to the Oil Conservation Division seeking approval for temporarily abandoning this well.
