Specific wellhead production will be required to be shut in during this maintenance. Attached is a list of wells that must be shut in by 8:00 PM local time on Friday, May 1, 2015 (TransWestern has agreed to keep nominations whole for Gas Day 1), all other gas will be directed to the South Carlsbad Plant during this maintenance. All operators and shippers should inform their appropriate field personnel of this notification and make plans to have the affected wells shut in during this period. On Gas Day May 7, the Enterprise Chaparral Plant will be back up and operational and nominations can be moved back to TransWestern Pipeline.
