NATURE OF RELEASE

Type of Release	Oil	Volume of Release	66 bbls	Volume Recovered	45 bbls
Source of Release	Hose on circulating pump	Date and Hour of Occurrence	11/11/2015, before 10:00 am	Date and Hour of Discovery	11/11/2015 10:00 am
Was Immediate Notice Given?	<input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?	Heather Patterson (voicemail)		
By Whom?	Kristin Pope	Date and Hour	11/12/2015 10:00 am		
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

NM OIL CONSERVATION
ARTESIA DISTRICT
NOV 19 2015

If a Watercourse was Impacted, Describe Fully.*
n/a

Describe Cause of Problem and Remedial Action Taken.*
Oil was lost from a tank due to a failure of a hose on the circulating pump. A vacuum truck removed standing fluid. A breach in the secondary containment liner material was exposed. The hose has been replaced.

RECEIVED

Describe Area Affected and Cleanup Action Taken.*
Oil was released into the bermed secondary containment surrounding the tanks (1,120 ft²) and onto approximately 290 ft² of the location pad. Soil moisture indicated that penetration was less than 2 inches deep, chloride field tests on 2-in-deep samples confirm. The affected material from the surface of the location and the gravel in the secondary containment was removed and replaced. The secondary containment liner will be repaired or replaced.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
