BLM Remarks, continued

for the utilization of the entire stockpiled topsoil. This was discussed with the contractor on location during the IR. IR calls for the downsizing of the location to what is needed for daily operations. There is an area the length of the location and roughly 20' wide behind the facility that should be reclaimed. I can't see this area as needed for daily operation. Address these issues. If any questions, contact Jim Amos @ 575-234-5909.
