Additional Comments: Work plan for the closure of drilling pit. The drilling	ng pit contents will be mixed to stiffen the pit contents.	. An encapsulation trench will be excavated						
and lined with a 12 mil synthetic liner on former drilling pit site. Drilling pit contents will then be emplaced into the encapsulation trench. A 20 mil synthetic liner will then be								
placed over the pit contents with a min of a 3' over lap of the underlying tre	nch area. Then encapsulation trench will then be back	filled back to grade using a min of 3' of clean						
soil and like material. A one call and 48 hr notice will be provided to the Oil	Conservation Division before pit closure actions begi	in. Pit closure actions will be 1 week after						
permit approval.	·
