Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Cimarex respectfully requests approval to shut-in production for the White City 14 #1 well due to pipeline maintenance and pipeline section replacements of the Transwestern Pipeline. Transwestern anticipates the maintenance project to be completed by January 1, 2017. Cimarex is reviewing other delivery point options with DCP. Other delivery point routes may require DOT compliance work which could take several months to complete. When an alternate route is determined and wells are returned to production a sundry will be submitted for approval.

Hello Rhonda Sheldon,

I hope all is well!

I am working on the shut-in requests because of the Transwestern Pipeline Damage.

The subject wells are not included in the memo that was sent to Mr. Ed Fernandez as of February 15, 2016.
Also not in the location that was also given.

So if you may please confirm that these wells are part of the Transwestern Pipeline Damage, and give me the effective date of shut-in. That will be greatly appreciated!!

Best Regards,

Kenneth Rennick

I found my answer quickly. The McGruder was put on the list by mistake but I had filed a 3160-5 on it before I knew. I filed a rescind notice on Feb 16th but had inadvertently put White City 14-1 in the body of the description. I then filed another 3160-5 to correct that. **The White City is still part of the Transwestern pipeline shut-in.**
