13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

We need to run three 4-inch surface poly pipelines from our Cal-Mon 35-21H well to our Cal-Mon #5 SWD, in order to dispose of produced water without having to use trucking.

The proposed pipeline route is 4,092.60 feet in length, 30 feet in width, crossing BLM Land in Section 35, T23S-R31E, as per the attached survey plat.

The entire route is within the boundaries of a single BLM oil & gas lease, and therefore does not need a ROW Application.

Accepted for record - NMOCD
